

## Paul J Wataha Complex Covid Protocol

- Players and coaches must be healthy to be at the ballpark; players health will be monitored by coaches. It is incumbent upon each of us to practice good hygiene before, at, and after ballgames.
- Each team is considered a group; each team must stay in its own area or side of the field
- Hand sanitizer will be provided in each dugout
- Teams must maintain 6 feet of separation when possible
- Players must bring their own water, we will not be providing team water jugs. This is to prevent players from sharing cups. No sunflower seeds.
- Teams are required to clean equipment after each game.
- Baseball dugouts are considered a “confined space” so an entire team cannot be in a dugout at once. Only 25 people on the field at any one time, which includes, players, coaches, and umpires. Reserve players must sit 6 feet apart at all times.
- Teams will not enter field 4 of the complex until the previous teams have completely left the complex and dugout area have been sanitized.
- Teams will be notified by Rock Springs board member when previous game is close to over, again when game is over, and lastly when it has been sanitized and safe to enter field 4.
- Each player/coach will use hand sanitizer when they enter the complex at the gate.
- Each player/coach will use hand sanitizer as they leave the dugout once game is over by the coach.
- Warmup procedure-Teams playing the next game may use softball fields 1 & 2 of the complex to warmup and stretch. 1 team per field to maintain social distancing. You will be given roughly 20 minutes before game officially starts for your pitcher in the bullpen areas.
- Entire teams cannot warmup on field before the game, just your starters so we avoid more than 25 on field.
